
1.0 Introduction and Indices

This joint Final Environmental Impact Statement/Environmental Impact Report (Final EIS/EIR) has been prepared pursuant to the National Environmental Policy Act (NEPA) and California Environmental Quality Act (CEQA) relative to federal and local actions pertaining to proposed improvements at Los Angeles International Airport (LAX). The federal actions consist of unconditional approval of the Airport Layout Plan (ALP) depicting the proposed Master Plan improvements and processing of an application for federal assistance or approval for use of passenger facility charges (PFC) for the further development of LAX. A description of the proposed action is provided in the Preface to this Final EIS/EIR. On January 18, 2001, FAA and the City of Los Angeles published a Draft EIS/EIR for the proposed improvements. In accordance with federal and state requirements, the Draft EIS/EIR was circulated for public review, with the review period closing on November 9, 2001. Nine public hearings were held during the public review period. Subsequent to the close of the public comment period on the Draft EIS/EIR, FAA and the City of Los Angeles prepared a Supplement to the Draft EIS/EIR. The Supplement to the Draft EIS/EIR was circulated for public review on July 9, 2003, with the review period closing on November 7, 2003. Twelve public hearings were held during this review period.

In accordance with the provisions of the Council on Environmental Quality's NEPA regulations (40 CFR 1503.4[a]) and with the *Guidelines for California Environmental Quality Act* (State CEQA Guidelines); 14 CCR §15088), the FAA and the City of Los Angeles jointly prepared responses to all comments received on the Draft EIS/EIR and the Supplement to the Draft EIS/EIR. In accordance with the State CEQA Guidelines, the focus of the responses to comments is on "the disposition of significant environmental issues raised." Detailed responses are not provided to comments on the merits of the proposed action or on other topics that do not relate to environmental issues.

Part II of this Final EIS/EIR provides written responses to the comments received during the public review periods for the Draft EIS/EIR and the Supplement to the Draft EIS/EIR. A total of 5,419 comment letters were received during the two public review periods, including letters and written materials submitted at the 21 public hearings held during those periods. Comments were also submitted in the form of oral testimony at those hearings. (For purposes of this Final EIS/EIR, written comments and oral testimony received during public hearings are often both referred to as "comment letters.") Copies of all comment letters received, and copies of the public hearing transcripts, are provided in Attachment 7 of this Final EIS/EIR. A total of 19,401 individual comments resulted from such input. This document presents the responses to comments received during the review periods for the Draft EIS/EIR (January 18, 2001 through November 9, 2001) and the Supplement to the Draft EIS/EIR (July 9, 2003 through November 7, 2003). Responses were not provided to comment letters received after the close of the comment period for the Supplement to the Draft EIS/EIR. However, copies of these letters are included in Attachment 6 of this document.

The format for the responses to comments presents, on a letter-by-letter basis, or commentor-by-commentor basis in the case of public testimony, each comment, which is then followed immediately by a response. For each of the two review periods, the comments and responses are organized and grouped into categories based on the affiliation of the commentor. The comments are presented in the following order: federal agencies, state agencies, regional agencies, local agencies, public comments (i.e., letters from private citizens, organizations, etc.), petitions and form letters, and public hearings. The public hearing testimony is presented in chronological order according to the hearing date.

An alphanumeric index system is used to identify each comment and response, and is keyed to each letter or hearing commentor and the individual comments therein. For example, the first letter within the group of federal agencies submitting comments on the Draft EIS/EIR is from the U.S. Environmental Protection Agency, and the text of the letter is considered to have 60 individual comments. The subject letter was assigned the alphanumeric label "AF00001," representing "Agency-Federal-Letter No. 1." The individual comments within the letter are labeled as AF00001-1 through AF00001-60. The same basic format and approach is used for the comment letters from state agencies ("AS"), regional agencies ("AR"), local agencies ("AL"), public comments ("PC"), petitions and form letters ("PF"), and public hearings ("PH"). This same alphanumeric labeling system is also used for the comments received on the Supplement to the Draft EIS/EIR, except that each label is preceded with the letter "S" to distinguish the comments from those on the Draft EIS/EIR (i.e., categories of comment letters on the Supplement to the Draft EIS/EIR include SAF for federal agency comments, SAS for state agency comments, and so on).

1. Introduction and Indices

Some letter identification numbers were not used (for example, PC00386). The Index by Letter Identification Number and the comments and responses do not include these unused numbers.

The following indicates the letter identification prefix code used for categorizing the comment letter types.

Letter ID Prefix	Description
	<i>Comments on the January 2001 Draft EIS/EIR</i>
AF	Federal Agency
AS	State Agency
AR	Regional Agency
AL	Local Agency
PC	Public Comment
PF	Petitions and Form Letters (Note: Petitions and Form Letters are ordered from PFA through PFS)
PHF	Public Hearing Furama - June 9, 2001
PHM	Public Hearing Manhattan Beach- June 9, 2001
PHP	Public Hearing Hollywood Park - June 9, 2001
PHMP	Public Hearing Luminarias Restaurant (Monterey Park) - October 30, 2001
PHSP	Public Hearing Peck Park Auditorium (San Pedro) - November 1, 2001
PHL	Public Hearing Los Angeles High School - November 3, 2001
PHPD	Public Hearing Palmdale Regional Airport -November 5, 2001
PHO	Public Hearing Ontario Airport Marriott - November 7, 2001
PHA	Public Hearing Airtel Hotel Plaza - November 8, 2001
	<i>Comments on the July 2003 Supplement to the Draft EIS/EIR</i>
SAF	Federal Agency
SAS	State Agency
SAR	Regional Agency
SAL	Local Agency
SPC	Public Comment
SPF	Petitions and Form Letters (Note: Petitions and Form Letters are ordered beginning with SPFA00001)
SPHL	Public Hearing Radisson Plaza Hotel (Los Angeles) - August 11, 2003
SPHO	Public Hearing Ontario Airport Marroitt - August 12, 2003
SPHMP	Public Hearing Luminarias Restaurant (Monterey Park) - August 13, 2003
SPHSP	Public Hearing Peck Park Auditorium (San Pedro) - August 14, 2003
SPHP	Public Hearing Hollywood Park Pavilion (Inglewood) - August 18, 2003
SPHA	Public Hearing Airtel Plaza Hotel (Van Nuys) - August 19, 2003
SPHM	Public Hearing Joslyn Community Center (Manhattan Beach) - August 20, 2003
SPHPD	Public Hearing Palmdale Regional Airport - August 21, 2002
SPHF	Public Hearing Furama Hotel - August 23, 2003
SPHR	Public Hearing Doubletree Hotel (Rosemead) - October 20, 2003
SPHGH	Public Hearing Granada Hill Charter High School - October 22, 2003
SPHE	Public Hearing Epic Center (Los Angeles) - October 25, 2003

In addition to individual comment letters, petitions and form letters were also received. A comment letter was considered to be a petition if a single set of comments was signed by multiple parties, in the form of a petition. A letter was considered to be a form letter if multiple copies of the letter, containing identically-worded text, were received from three or more distinct commentors, or authors. Each petition and form letter was given its own distinct alphanumeric designation starting with the alpha designation of "PF" (for a petition or form letter on the Draft EIS/EIR) or "SPF" (for a petition or form letter on the Supplement to the Draft EIS/EIR). For example the first petition or form letter received on the Draft EIS/EIR is designated "PFA," representing "Petition/Form Letter A," with the "A" representing the first petition/form letter received. Each signatory of a distinct petition was identified as one of the petition "authors;" therefore, each petition has multiple co-authors. In some cases, signatories to petitions were not sent in together.

In these cases, the first batch of signatories was assigned the first number (e.g., "PFA00001") and the second batch of signatories was assigned a subsequent number (e.g., "PFA00002"). Petition signatories looking for responses to the petition they signed are directed to the Index By Commentor (see Indices of Comment Letters below) to identify the alphanumeric designation given to the petition. In the case of form letters, each unique form letter was assigned an alpha designation following the "PF" code (e.g., "PFB") followed by a numeric designation assigned to each individual letter author (e.g., "PFB00001," "PFB00002," etc.). It should be noted that, if an individual commentor submitted a comment letter that contained the text from a form letter but also provided unique comments, the comment letter was labeled as a "PC" (public comment) letter rather than a "PF" letter. In addition, for the petition identified as "PFI," many signatories provided unique comments on the petition form. In this case, each signatory was assigned a unique designation (e.g., "PFI00001," "PFI00002," etc.).

Because the text of a petition or form letter is common to all of the signatories or commentors, only one set of responses is provided to each petition or form letter. In the case of form letters, responses are only provided to the first assigned commentor (e.g., PFB00001). Responses are not provided to other authors of that form letter (e.g., PFB00002, PFB00003, etc.). Thus, should the author of form letter PFB00008 wish to review the responses to comments on his/her comment letter, he/she would refer to the responses to comments in PFB00001. However, as indicated above, a copy of each and every original comment letter, including all form letters and petitions, is provided in Attachment 7 of this Final EIS/EIR.

To assist the reader's review and use of the responses to comments, three indices are provided. These indices provide the alphanumeric label number, commentor name, affiliation (i.e., name of agency or organization that the author represents), and date (if provided) of each comment letter. The first index lists all of the comment letters by alphanumeric label number, the second index lists all of the comment letters by the commentor's last name, and the third index lists all of the comment letters by the affiliation, if any, of the commentor. Some comment letters were signed by multiple parties. The indices include all signatories to each letter received.

The responses to comments consist of both topical responses and individual comments. Within the approximately 19,000 individual comments submitted on the Draft EIS/EIR and the Supplement to the Draft EIS/EIR, many issues were raised by multiple commentors, and many comments pertained to a general theme that was common to multiple commentors. To respond to these comments, topical responses were prepared that provide a single comprehensive discussion of the issue of concern. A total of 56 topical responses are provided. Each topical response ("TR") has an alphanumeric designation related to its general subject matter. For example, topical responses pertaining to air quality are designated "TR-AQ." Each topical response is also identified by a number. The first topical response pertaining to air quality is thus designed "TR-AQ-1." Individual comments are cross-referenced to these topical responses. The topical responses are provided in Chapter 2, *Topical Responses*.

Chapter 3, *Comments and Responses*, includes the individual comments and responses, presented on a letter-by-letter or, in the case of public hearings, commentor-by-commentor basis. Each comment is typed exactly as it appears in the original comment letter or hearing transcript. No corrections to typographical errors or other edits to the original comments were made. A copy of each and every original comment letter is provided in Attachment 7 of this Final EIS/EIR.

Immediately following each typed comment is a written response developed jointly by the FAA and the City of Los Angeles. In many instances, the response to a particular comment may refer to the response(s) of another comment(s) that expressed the same concern or is otherwise related. Cross-referencing of responses uses the alphanumeric index system described above. For example, a response may indicate "Please see Response to Comment SAL00033-22" if that response addresses the same concern expressed in a different comment. In cases where the content of a letter is identical to the content of another letter, but the addressee is different (i.e., one letter is addressed to FAA and the other is addressed to LAWA) or the authors are different, a single set of responses is provided for both letters. In such instances, the following text is provided in lieu of the comment(s) and responses(s): "The content of this comment letter is identical to comment letter [ID number]; please refer to the responses to comment letter [ID number]."

Presentation of Information Comprising Part II of the Final EIS/EIR

The information comprising Part II of the Final EIS/EIR described above is contained in several volumes presented as follows:

Table of Contents

Part II- Responses to Comments
